# how to find vtl

## from North West/Stoke-on-Trent

Take the A50 through Stoke-on-Trent and continue past Derby.

When you are approaching the M1, the road will fork – keep right and you will arrive at a roundabout.

Take the second exit, and continue past the hotel until you reach the M1 roundabout.

At the M1 roundabout, take the second exit, A453 signed Nottingham.

Travel past the Ratcliffe Power Station which will be on your left.

At the roundabout, take the second exit (straight on).

At the traffic lights, continue straight on.

Take the next left fork in the road, following signs for Grantham, A52.

The slip road ends in a roundabout where you should take the first exit.

After a short while you will approach a mini-roundabout, at which you should turn right.

Your traffic lane will now filter in to the ring road.

At the first roundabout (Nottingham Knight), take the second exit, staying on the A52.

At the second roundabout (Wheatcroft), take the second exit, staying on the A52, following signs for Newark.

At the third roundabout (Gamston), take the second exit, effectively turning right, still on the A52.

At the fourth roundabout (Saxondale),

Exit at the next junction, signed East Bridgford.

At the fifth (and final) roundabout, take the second exit, on to the A6097, signed Lowdham, East Bridgford.

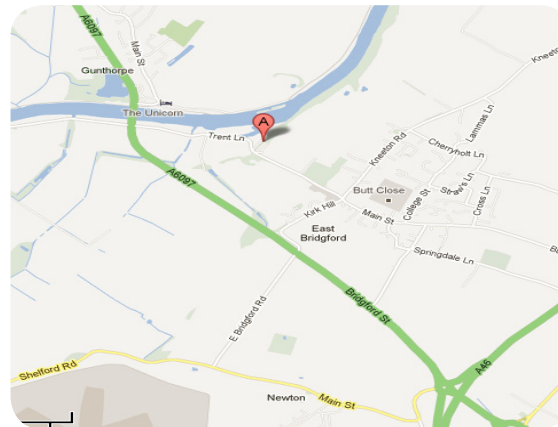

At the first set of traffic lights, turn right, signed East Bridgford.

Straight after the church on the left turn left on to Trent Lane.

Keep driving for 500 yards then turn right at the signpost Vantage Training Ltd, Kingfisher Wharf, and Lincolnshire Marine Servies.

Carry on down the lane until you reach the car park on your left just after the main gates.

The first door you can see from here, marked with a **vtl** plaque, is our entrance.

## from Nottingham via Colwick

Take the A612 out of Nottingham following signs for Southwell and Newark.

Continue along the road past Nottingham Race Course and the industrial estates.

Continue through Burton Joyce and eventually to a roundabout at Lowdham.
